

About Us

PROVIEW-MBD Biotech is dedicated to advancing healthcare quality. Originally a cross-border distributor of medical devices, our group evolves into an independent R&D-driven organization. PROVIEW-MBD has developed an innovative sprayable anti-adhesion hydrogel, introducing a breakthrough medical technology for post-surgical care and treatment.

Solution of Medical Healthcare

Different types of Medical Applications

Sedoso - Patient Lubricant

- Viscous, clear, preservative-free hydrogel.
- Provide relief for vaginal dryness of various origins.

AtamaBarrier - Dural Anti-Adhesion Gel

- Sterile, non-pyrogenic, absorbable, and injectable hydrogel.
- Composed of 100% synthetic USP/EP grade raw materials.
- As a temporal barrier for pain alleviation after lumbar laminectomy, laminotomy, and discectomy procedures.

AlonsoKnee/AlonsoArk - Synovial Fluid Supplement

- Synovial fluid supplement product with non-animal hyaluronic acid.
- Viscous, clear, non-pyrogenic, and sterile solution with a concentration of 20 mg/mL sodium hyaluronate.
- Indicated for the treatment of pain in osteoarthritis (OA) of the knee joint.

ThergiSpray

-Abdominal Postsurgical Sprayable Thermosensitive Adhesion Barrier

- ✓ Single liquid solution requires no additional material preparation
- ✓ Ready to use—no complex assembly needed
- ✓ Provides precise application with wide coverage area
- ✓ Suitable for both laparotomy and laparoscopic surgeries
