4G Health Monitoring Smartwatch

With Guider Technology's medical IoT technology as the core and integrating Qualcomm 4G communication technology, We provide you with a full-time and seamless healthcare platform.

Provides real-time health status, location and emergency calls, and connects cloud data and service centers to provide the most comprehensive protection for your family.

Product Specifications

Size	50mm×40mm×15mm
Weight	65g
Working Hours	72 hours(Standby)
Emergency Call	SOS Button
Measurement Items	Heart Rate
	HRV
	RR Interval
	Blood Pressure
	Blood Oxygen
	Body Temperature

Measurement Items	Respiratory Rate
	Cough
	Activity
	Steps
	Sleep
Communication Chip	Qualcomm MDM9X07
Location Positioning	AGPS GPS
Call Function	4G voice Call
PPG	GH3026
Certification	NCC\FCC\CE\TELEC\JATE
